

Internship - Supply Chain Data Analytics

Are you looking for an internship within Supply Chain Management as part of your education? If so, you now can join FUJIFILM Diosynth Biotechnologies Denmark (FDBD) and become a part of a fast-growing Supply Chain Organisation. The start date will be the 1st of February 2024. The internship is for 5-6 months.

We are looking for an ambitious student with a data-driven and curious mindset to take part in our journey of making data available at our fingertips. Our complexity is growing in at a fast pace and it is essential to enable the organisation to make better and faster decisions. This is a fantastic opportunity to get into the pharma/biotech industry to learn how Supply Chain is operating, working alongside with experienced specialists. The intern will be supporting various teams within Supply Chain Operations who is responsible for Supply Planning, Purchasing, Shipping, Customer Service and Program Management. An area consisting of 25+ dedicated employees.

Our Expectations

It is expected that you are enrolled in a Bachelor or Master Program preferably within Engineering, Manufacturing and Management, Data Science or similar.

Good English skills are required.

Your main tasks and responsibilities will be:

- Automating and speeding up tasks using Alteryx
- Developing dashboards for visualization of data with Tableau
- Help stakeholders optimize their use of data to allow for faster and data-driven decisions
- We don't expect you to know how to use Alteryx or Tableau, but we do expect that you have a strong interest in learning to use the tools

As an intern, you can expect an exciting and challenging time with a high degree of freedom to solve the tasks you have been entrusted with, and where you have the opportunity to develop, both professionally and personally.

As a Person You Are

Curious of nature, detail oriented, and keen on working with data. You meet and greet people with a smile and have a can-do attitude. You work with a humility and respect for the people around you. You are robust, flexible and able to prioritise tasks to meet

defined timelines. You work structured with a quality mind set and enjoy working independently and proactively in a dynamic entrepreneurial environment.

Application

If this has sparked your interest, please upload your targeted CV and cover letter. We will screen candidates on a continuous basis and call in for interviews. Please be aware that it is a requirement that you receive ECTS points for your semester from your university.

For further information or questions please contact Senior Manager Niklas Garborg +45 77416021

Working at FUJIFILM Diosynth Biotechnologies

FUJIFILM Diosynth Biotechnologies is an industry-leading Biologics Contract Development and Manufacturing Organization (CDMO) with locations in Hillerød, Denmark, Teesside, UK, RTP, North Carolina and College Station, Texas, USA. We use our skills, dedication, and ambition to enable impact for the world's most innovative biotech and biopharma companies reimagining healthcare's potential. We work across the entire lifecycle of our customers' products – enabling success throughout. Every cure, vaccine, biologic, and advancement we contribute to starts with our people and our passion. We fuel one another's passion, help accelerate progress, expand capabilities, strengthen innovation, and improve processes to improve lives.

Our Manufacturing site in Hillerød, Denmark, brings together a complete range of expertise, capabilities, and technologies to manufacture advanced biologics. As we continue to enhance and expand our capabilities, we are looking for people who share our passion, drive, and energy – what we call Genki – to join our team.

We offer the chance to be part of a global workplace where passion, drive and commitment are met with opportunities for professional and personal development. Deeply committed to diversity and inclusion, we ensure that everyone no matter their background or gender has an opportunity to develop. We take pride in enriching our communities, caring for our environment, and cultivating a world of opportunity for future generations.

We aim to foster a collaborative, innovative and rewarding environment, where diverse perspectives and people come together united by a common purpose and shared values. We pursue our fullest potential as individual contributors and team members. We strive to be the employer of choice and offer a competitive compensation and benefit package.

FUJIFILM Diosynth Biotechnologies Denmark (FDBD) is an Equal Opportunity Employer. All qualified applicants will receive consideration for employment without

regard to race, colour, religion, sex, national origin, disability, sexual orientation, gender identify or any other protected class.
